

RESEARCH INTERESTS

I am a Ph.D. student in computer science at the University of Maryland, College Park, advised by Professors Jordan Boyd-Graber and Rachel Rudinger. I conduct research with the goal of better aligning and evaluating LLMs, with a focus on **factuality** in text generation, guiding models toward **true user needs**, and evaluating the **weaknesses** and **capabilities** of models. I am extremely grateful to be funded by the NSF GRFP and a Cohere for AI Research Grant.
